## PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: George Fogel
DOCKET NO.: 06-29129.001-R-1
PARCEL NO.: 14-31-429-052-0000

The parties of record before the Property Tax Appeal Board are George Fogel, the appellant, by attorney Timothy Jacobs with the Law Offices of Gary H. Smith in Chicago, and the Cook County Board of Review.

The subject property consists of an eight-year-old, two-story, single-family dwelling of masonry construction containing 2,406 square feet of living area and located in West Chicago Township, Cook County. Features of the residence include three and one-half bathrooms, a full-finished basement, air-conditioning, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on seven properties suggested as comparable to the subject. The appellant also submitted a onepage brief and a copy of the board of review's decision. on the appellant's documents, the seven suggested comparables consist of two-story, single-family dwellings of frame or masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,112 to 3,375 square feet of living area and range in age from eight to sixteen years. comparables contain from one and one-half to three and one-half bathrooms, air-conditioning as well as a two-car garage. comparables contain a full-finished basement and two comparables have a fireplace. The improvement assessments range from \$18.69 to \$22.74 per square foot of living area. The appellant's evidence disclosed that the subject sold in April 2003 for a

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds <u>no change</u> in the assessment of the property as established by the <u>Cook</u> County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,103 IMPR.: \$ 57,996 TOTAL: \$ 70,099

Subject only to the State multiplier as applicable.

price of \$701,000. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$70,099. The subject's improvement assessment is \$57,996 or \$24.10 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, eight or eleven-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,612 to 2,406 square feet of living area. The comparables contain two and one-half, three or three and onehalf bathrooms, a full-finished basement, air-conditioning and a one-car or two-car garage. Two comparables contain a fireplace. The improvement assessments range from \$24.73 to \$27.37 per square foot of living area. The board's evidence disclosed that the subject sold in April 2003 for a price of \$701,000. Based on presented, the board of review requested evidence confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables three, four, five and seven and the board of review's comparables one and two to be the most similar properties to the subject in the record. These six properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$20.19 to \$25.82 per square foot of living area. The subject's per square foot improvement assessment of \$24.10 falls within the range established by similar properties. Board finds the remaining comparables less similar to the subject improvement size and/or construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law  $(735 \, \text{LCS} \, 5/3-101 \, \text{et seq.})$  and section 16-195 of the Property Tax Code.
